

NAVector/NAVector.h

```
graph TD; A[NAVector/NAVector.h] --> B[iostream]; A --> C[bits/stdc++.h]
```

The diagram illustrates the header file dependencies for `NAVector/NAVector.h`. It is represented as a box at the top with two arrows pointing downwards to two separate boxes below it. The left box contains the text `iostream` and the right box contains the text `bits/stdc++.h`.

`iostream`

`bits/stdc++.h`
